

# AHMED AL-SALEH

## Flutter Developer | Mobile Engineer with Node.js Backend Experience

Syria | Remote | Phone: +963 992 086 301 [LinkedIn](#) | [GitHub](#) | [YouTube](#) | [Whatsapp](#) | [Asmlahmd15@gmail.com](mailto:Asmlahmd15@gmail.com) Portfolio: [Portfolio](#)

Flutter Developer with 4+ years of experience building and maintaining cross-platform mobile applications for Android and iOS. Strong hands-on experience in Flutter, Dart, REST API integration, Firebase services, state management, and clean architecture. Also experienced in Node.js and NestJS backend development, helping deliver mobile products with stronger frontend-backend collaboration. Familiar with AI-assisted development workflows and basic LLM API integration for practical product features.

---

## CORE SKILLS

Mobile: Flutter, Dart, Android, iOS

State Management: Riverpod, BLoC, Provider, GetX

Architecture: Clean Architecture, MVVM, SOLID

Backend & APIs: Node.js, Express.js, NestJS, REST APIs, GraphQL, JWT, RBAC

Firebase & Services: Firebase Auth, Firestore, FCM, Crashlytics, Analytics

App Features: Push Notifications, Google Maps SDK, Geolocation, Social Login, Payment Integration

Databases: PostgreSQL, MySQL, MongoDB, SQLite, Hive, Supabase

Testing & Delivery: Unit Testing, Widget Testing, Integration Testing, CI/CD, Docker

Workflow & Tools: Git, GitHub, GitLab, Jira, Trello, Agile/Scrum

Basic AI: AI-assisted coding workflows, prompt design, basic LLM API integration, structured outputs

---

## PROFESSIONAL EXPERIENCE

- **Backend Developer | Node.js / NestJS | Remote**

**Jan 2025 – May 2025**

Built and maintained backend services using Node.js and NestJS.

Implemented JWT authentication and role-based access control (RBAC).

Designed REST and GraphQL APIs; worked with MongoDB and PostgreSQL.

Supported deployments with Docker and CI/CD pipelines.

- **Project Manager & Team Leader | Heronet Sweden | Remote**

**Jan 2024 – May 2024**

Led a remote team of 7 developers across 3 mobile app projects (Agile).

Managed sprint planning, delivery coordination, and stakeholder communication.

Improved team workflow using Jira, Trello, and Git-based collaboration.

- **Mobile Application Developer | Pirla Tech | Remote**

**Mar 2023 – Nov 2023**

Built cross-platform mobile apps using Flutter.

Integrated Firebase/MySQL and implemented CI/CD using GitLab CI.

Integrated payment gateways and contributed to performance optimization.

- **Freelance Flutter Developer | Self-Employed | Remote**

**Jan 2022 – Present**

Delivered 10+ Flutter applications for clients across multiple domains.

Integrated Firebase, OAuth2, Maps SDK, and payment APIs with clean architecture.

Used AI-assisted workflows for faster prototyping, debugging, and documentation.

- **Mobile Application Developer | IntelliJ | Remote**

**Feb 2021 – Oct 2022**

Built 5 mobile apps with real-time features, geolocation, and push notifications.

Improved stability via testing, debugging, and release hardening practices.

with design teams

---

## SELECTED PROJECTS

### **E-Commerce Shopping App** | *Flutter, Firebase, Stripe API, PayPal*

Built a cross-platform shopping app with product browsing, cart flow, and online payment integration.

Integrated payment-related flows and focused on smooth checkout behavior and maintainable code structure.

Delivered a clean mobile shopping experience centered on usability and reliability.

### **VeggiDeliver App** | *Flutter, Firebase, Google Maps SDK*

Developed a grocery delivery app with location-based features and real-time tracking elements.

Implemented maps and geolocation functionality to improve delivery visibility and user experience.

Focused on responsive UI behavior for location-aware delivery flows.

### **My Learning Platform** | *Flutter, Firebase, Google Analytics*

Created a mobile learning platform with activity tracking and engagement analytics.

Built user-facing educational flows with backend-connected content and mobile-friendly navigation.

Used analytics to support better visibility into learner activity and engagement patterns.

### **TaskPad App** | *Flutter, Firebase, SQLite*

Developed a task management app with real-time sync and offline/local data support.

Combined cloud and local storage behavior for better usability and reliability.

Focused on structured architecture and efficient state handling for day-to-day task flows.

---

## HIGHLIGHTS

- 4+ years in Flutter and cross-platform mobile development.
  - 10+ freelance Flutter applications delivered across multiple domains.
  - Hands-on experience with Firebase, payments, maps, push notifications, and API-driven products.
  - Node.js / NestJS backend experience that supports stronger frontend-backend collaboration.
  - Agile remote team leadership experience in addition to hands-on engineering work.
- 

## EDUCATION

**Bachelor's Degree in Informatics Engineering** — Syrian Virtual University (SVU) | Graduated: November 2024

**Intermediate Institute in Information Technology** — Damascus University | Graduated: August 2021

## CERTIFICATIONS

- Project Management Professional (PMP)
- Agile Scrum Certification
- Firebase / Cloud credential
